Withey, J. R., 429

SUBJECT INDEX TO VOLUME 32

Adriamycin, Actinomycin D, and Cisplatin, modifying effects on 2-fluorenylacetamide-induced hepatocarcinogenesis, 269
Alcohols, short-chain, hypothermic effects of a homologous series, 129

Bis(tri-*n*-butyltin) oxide, immunotoxicity of in the rat, 307
Butyl benzyl phthalate, lack of neuropathological changes in rats after exposure to, 345

Cadmium-induced changes in luminal fluid pH, 49
Carcinogenic potency correlations, 1
Chlordecone, amplification of CCl_4 toxicity, 277
Chromium-contaminated soils, assessment of the human health risks posed by exposure to, 161

1,2-Dimethylhydrazine, chronic toxicity of, 383
Dioxin contamination and growth and development in great blue heron embryos, 331
Dioxin, human exposures from in soil, 205

Ethanol, influence on microsomal *p*-nitrophenol hydroxylation and ethoxyresorufin deethylation in rat liver and lung, 153

Freund's adjuvant, effects of on 2-hydroxyethylnitrosourea carcinogenesis, 59

Iodine and iodide, comparison of toxicity in rats, 89

Lead content, model for the assessment of in human surface enamel, 111

Marijuana, and cytotoxic T cells, 465
Metals, inhibition of metabolic coupling by, 33
Methylamines, developmental toxicity of in mice, 319
Methylprednisolone, effects of on 2-hydroxyethylnitrosourea carcinogenesis, 59
Monoamine oxidase, role of in aminopropionitrile-induced neurotoxicity, 415

Parathion, effect of systemic exposure on dark adapted pupil dilation of cynomolgus monkeys, 75
Pentachlorophenol, effects of on 2-hydroxyethylnitrosourea carcinogenesis, 59
Pesticides and the third world, 11
Pharmacokinetic models, physiologically based, development of, 247
Pyrene, pharmacokinetics and bioavailability in the rat, 429

Selenomethionine, subchronic hepatotoxicity of in Mallard ducks, 449
Sister chromatid exchange frequencies, induced by brandy residues, 479

2,3,7,8-Tetrachlorodibenzo-*p*-dioxin serum concentrations, and residents of Seveso, Italy, 357
2,3,7,8-Tetrachlorodibenzo-*p*-dioxin-mediated hepatotoxicity, comparison in C57BL/6J and DBA/2J mice, 367
2,4,5-Trichlorophenoxyacetic acid, effects of on 2-hydroxyethylnitrosourea carcinogenesis, 59
Trimethyltin, autonomic thermoregulatory response to in Fischer 344 and Long-Evans rats, 141

p-Xylene, inhaled, assessment of hepatotoxicity of acute and short-term exposure to in F-344 rats, 295
